The unaudited condensed interim financial statements should be read in conjunction with the audited financial statements for the financial year ended 31 December 2021

PART A - EXPLANATORY NOTES

A1 Basis of preparation

- a) The unaudited condensed interim financial statements for the financial period ended 30 September 2022 have been prepared under the historical cost convention, except for financial assets at fair value through profit or loss, debt instruments at fair value through other comprehensive income, derivative financial instruments and financial liabilities designated at fair value through profit or loss, that have been measured at fair value.

The unaudited condensed interim financial statements have been prepared in accordance with MFRS 134 “Interim Financial Reporting” issued by the Malaysian Accounting Standards Board and paragraph 9.22 of Bursa Malaysia Securities Berhad's Listing Requirements.

The unaudited condensed interim financial statements should be read in conjunction with the Group's and the Bank's audited financial statements for the financial year ended 31 December 2021. The explanatory notes attached to the condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and the Bank since the financial year ended 31 December 2021.

The significant accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2021, and modified for the adoption of the following accounting standards applicable for financial periods beginning on or after 1 January 2022:

- Amendment to MFRS 16 “COVID-19-Related Rent Concessions beyond 30 June 2021”
- Amendments to MFRS 116 “Proceeds before intended use”
- Amendments to MFRS 3 “Reference to Conceptual Framework”
- Amendments to MFRS 137 “Onerous Contracts –Cost of Fulfilling a Contract”
- Annual improvements to MFRS 9 “Fees in the 10% test for derecognition of financial liabilities”
- Annual Improvements to MFRS 1 “Subsidiary as First-time Adopter”
- Annual Improvements to Illustrative Example accompanying MFRS 16 Leases: Lease Incentives

The adoption of the above amendments to published standards did not give rise to material financial impact to the Group's and the Bank's financial statements.

- b) The easing of Covid-19 concerns has contributed to the normalisation of economic activity, higher consumer spending and an improvement in global travel activities. Nonetheless, the recovery momentum continues to face headwinds from the still prevalent threat of Covid-19 variants, geopolitical tensions and the possibility of a global recession. Governments are expected to continue tightening fiscal and monetary policies to curb inflationary pressures.

The Bank had supported customers impacted by the pandemic by providing targeted assistance programs. Most customers have since migrated out of these programs. Various prevailing uncertainties will continue to be monitored and the Bank will continue to keep track of asset quality.

The preparation of unaudited condensed interim financial statements in conformity with the MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed interim financial statements, and the reported amounts of income and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group and Bank's accounting policies. Although these estimates and assumptions are based on the Directors' best knowledge of current events and actions, actual results may differ from those estimates.

A2 Changes in estimates

There were no material changes to financial estimates made in respect of the current financial period that had previously been announced or disclosed other than those disclosed under the basis of preparation.

PART A - EXPLANATORY NOTES (CONTINUED)

A3 Issuance and repayment of debt and equity securities

a) On 14 January 2022, the Bank has redeemed RM70 million Basel II Additional Tier 1 Perpetual Preference Shares from CIMB Bank Berhad.

b) On 28 November 2022, CIMB Islamic issued RM300 million Tier 2 Junior Sukuk under its RM5.0 billion Tier 2 Junior Sukuk Programme. The Sukuk, which was fully subscribed by CIMB Bank Berhad, bears a coupon rate of 4.90% per annum payable semi-annually, will mature on 26 November 2032, with first call date on 29 November 2027.

A4 Proposed dividend

There were no dividends paid or proposed for the financial period ended 30 September 2022.

A5 Significant events after the reporting period

There were no significant events other than those disclosed under issuance and repayment of debt equity securities that had occurred between 30 September 2022 and the date of this announcement.

For the financial year ended 31 December 2021, the overlays and post-model adjustments have been applied to determine a sufficient overall level of ECL. These overlays and post-model adjustments were taken to reflect the latest macroeconomic outlook not captured in the modelled outcome and the potential impact to delinquencies and defaults arising from the escalation of credit risk on certain segments of the targeted repayment assistance financing.

A21 Modification loss

In light of the COVID-19 outbreak, BNM and the Malaysian Ministry of Finance have introduced several relief measures to assist customers affected by the pandemic. These measures aim to ensure that the financial intermediation function of the financial sector remains intact, accessibility to financial services continues to be available, and banking institutions remain focused on supporting the economy during these exceptional circumstances.

Modification loss is the Day-1 loss arising from granting the payment relief on all financing, advances and other financing/loans repayment.

A27 Islamic derivative financial instruments, commitments and contingencies

(i) Islamic derivative financial instruments

The following tables summarise the contractual or underlying principal amounts of trading derivative and financial instruments held for hedging purposes. The principal or contractual amounts of these instruments reflect the volume of transactions outstanding at the end of the reporting period, and do not represent amounts of risk.

Trading derivative financial instruments are revalued on a gross position basis and the unrealised gains or losses are reflected in "Islamic Derivative Financial Instruments" Assets and Liabilities respectively.

PART A - EXPLANATORY NOTES (CONTINUED)

A27 Islamic derivative financial instruments, commitments and contingencies (continued)

(i) Islamic derivative financial instruments (continued)

The Group's and the Bank's derivative financial instruments are subject to market, credit and liquidity risk, as follows:

Market Risk

Market risk is defined as any fluctuation in the value arising from changes in value of market risk factors such as profit rates, currency exchange rates, credit spreads, equity prices, commodities prices and their associated volatility. The contractual amounts provide only a measure of involvement in these types of transactions and do not represent the amounts subject to market risk. The Group's risk management department monitors and manages market risk exposure via stress testing of the Group's Value-at-Risk (VaR) model, in addition to reviewing and analysing its treasury trading strategy, positions and activities vis-à-vis changes in the financial market, monitoring limit usage, assessing limit adequacy, and verifying transaction prices.

Credit Risk

Credit risk arises when counterparties to derivative contracts, such as profit rate swaps, are not able to or willing to fulfil their obligation to pay the Group the positive fair value or receivable resulting from the execution of contract terms. As at 30 September 2022, the amount of credit risk in the Group and the Bank, measured in terms of the cost to replace the profitable contracts, was RM544,932,000 (31 December 2021: RM241,287,000). This amount will increase or decrease over the life of the contracts, mainly as a function of maturity dates and market rates or prices.

Liquidity Risk

Liquidity risk on derivatives is the risk that the derivative position cannot be closed out promptly. Exposure to liquidity risk is reduced through contracting derivatives where the underlying items are widely traded.

Cash requirements of the derivatives

Cash requirements of the derivatives may arise from margin requirements to post cash collateral with counterparties as fair value moves beyond the agreed upon threshold limits in the counterparties' favour, or upon downgrade in the Bank's credit ratings. As at 30 September 2022, the Group has posted cash collateral of RM434,330,000 (31 December 2021: RM49,640,000) on their derivative contracts.

There have been no changes since the end of the previous financial year in respect of the following:

- a) the types of derivative financial contracts entered into and the rationale for entering into such contracts, as well as the expected benefits accruing from these contracts;
- b) the risk management policies in place for mitigating and controlling the risks associated with these financial derivative contracts; and
- c) the related accounting policies.

The above information, policies and procedures in respect of derivative financial instruments of the Group and the Bank are disclosed in the audited annual financial statements for the financial year ended 31 December 2021.

PART A - EXPLANATORY NOTES (CONTINUED)

A28 Capital Adequacy

The capital adequacy framework applicable to the Malaysian banking entities is based on the Bank Negara Malaysia ("BNM") Capital Adequacy Framework for Islamic Banks ("CAFIB") (Capital Components), of which the latest revision was issued on 9 December 2020. The revised guidelines took effect on 9 December 2020 for all banking institutions and financial holding companies and sets up the regulatory capital requirements concerning capital adequacy ratios and components of eligible regulatory capital in compliance with Basel III.

The risk-weighted assets of the Bank Group and the Bank are computed in accordance with the CAFIB (Basel II - Risk-Weighted Assets), of which the latest revision was issued on 3 May 2019.

The Internal Ratings Based ("IRB") Approach adopted by CIMB Islamic Bank is applied for the major credit exposures with retail exposures on Advanced IRB approach and non-retail exposures on Foundation IRB approach. The remaining credit exposures and Market Risk are on the Standardised Approach while Operational Risk is based on the Basic Indicator Approach.

(a) The capital adequacy ratios of the Group and Bank are as follows:

	The Group		The Bank	
	30 September 2022	31 December 2021	30 September 2022	31 December 2021
Common equity tier 1 ratio	13.038%	15.109%	13.039%	15.109%
Tier 1 ratio	13.662%	15.875%	13.662%	15.875%
Total capital ratio	15.999%	18.853%	15.999%	18.853%

(b) The breakdown of risk-weighted assets ("RWA") by each major risk category is as follows:

	30 September 2022	31 December 2021	30 September 2022	31 December 2021
	RM'000	RM'000	RM'000	RM'000
Credit risk	51,107,623	41,619,100	51,107,738	41,619,215
Market risk	420,864	802,478	420,864	802,478
Operational risk	4,629,744	4,159,336	4,628,934	4,158,559
Total risk-weighted assets	56,158,231	46,580,914	56,157,536	46,580,252

(c) Components of Common Equity Tier 1, Additional Tier 1 and Tier 2 capitals are as follows:

	30 September 2022	31 December 2021	30 September 2022	31 December 2021

Tier 2 capital				
Subordinated notes	1,100,000	1,100,000	1,100,000	1,100,000
Surplus eligible provisions over expected loss	131,878	215,326	131,876	215,326
General provisions ^	80,680	71,643	80,681	71,644
Total Tier 2 capital	1,312,558	1,386,969	1,312,557	1,386,970
Total capital	8,984,727	8,781,708	8,984,691	8,781,674

^ Total capital of the Group and the Bank has excluded general provisions from Tier 2 capital of RM40.1 million (2021: RM36.1 million).

PART A - EXPLANATORY NOTES (CONTINUED)

A29 Restricted Agency Investment Account -RAIA

The details of the Restricted Agency Investment Account (“RAIA”) financing are as below. The exposures and corresponding risk weighted amount are reported in investors’ financial statements.

	The Group and the Bank	
	30 September 2022	31 December 2021
	RM'000	RM'000
<u>RAIA arrangement</u>		
Financing and advances	12,828,274	10,248,755
Commitments and contingencies	1,500,000	2,500,000
	<u>14,328,274</u>	<u>12,748,755</u>

	The Group and the Bank	
	30 September 2022	31 December 2021
	RM'000	RM'000
Total RWA for Credit Risk	1,096,472	1,227,746
	<u>1,096,472</u>	<u>1,227,746</u>

RAIA arrangement is with the Bank’s holding company, CIMB Bank, and the contract is based on the Wakalah principle where CIMB Bank provides the funds, whilst the assets are managed by the Bank (as the Wakeel or agent). In the arrangement, the Bank has transferred substantially all the risk and rewards of ownership of the Investment (i.e. the financing facility) to CIMB Bank. Accordingly, the underlying assets (including the undisbursed portion of the financing commitment) and allowance for impairment arising thereon, if any, are recognised and accounted for by CIMB Bank.

PART A - EXPLANATORY NOTES (CONTINUED)

A30 Segmental reporting

Definition of segments

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker is the person or group that allocates resources to and assesses the performance of the operating segments of an entity. The Group has determined the Group Executive Committee as its chief operating decision-maker.

The business segment results are prepared based on the Group's internal management reporting, which reflect the organisation's management reporting structure.

Business segment reporting

Definition of segments:

The Group has four major operation divisions that form the basis on which the Group reports its segment information.

Consumer Banking

Consumer Banking provides everyday banking solutions to individual customers covering Islamic financial products and services such as residential property financing, non-residential property financing, personal financing, hire purchase financing, credit cards, wealth management, bancatakaful, remittance and foreign exchange, deposits and internet banking services.

Commercial Banking

Commercial Banking offers products and services for customer segments comprising small and medium-scale enterprises ("SMEs") and mid-sized corporations. Their products and services include banking credit facilities, trade financing, cash management, online business banking platform, remittance and foreign exchange, as well as general deposit products.

Wholesale Banking

Wholesale Banking comprises Investment Banking, Corporate Banking, Treasury and Markets, Transaction Banking and Private Banking.

Investment Banking includes end-to-end client coverage and advisory services. Client coverage focuses on marketing and delivering solutions to corporate and financial institutional clients whereas advisory offers financial advisory services to corporations on issuance of debt restructuring, initial public offerings, secondary offerings and general corporate advisory.

Corporate Banking offers a broad spectrum of Islamic funding solutions ranging from trade, working capital lines and capital expenditure to leveraging, merger and acquisition, leveraged and project financing. Corporate Banking's client managers partner with product specialists within the Group to provide a holistic funding solution, from cash management, trade finance, foreign exchange, custody and corporate financings, to derivatives, structured products and debt capital market.

Treasury and Markets focuses on treasury activities and services which include foreign exchange, money market, derivatives and trading of capital market instruments. It includes the Group's equity derivatives which develops and issues new equity derivatives instruments such as structured warrants and over-the-counter options to provide investors with alternative investment avenues.

Transaction Banking comprises Trade Finance and Cash Management which provide various trade facilities and cash management solutions.

Private Banking offers a full suite of wealth management solutions to high net worth individuals with access to a complete range of private banking services, extending from investment to securities financing to trust services.

Group Funding

Group Funding encompasses a wide range of activities from capital, balance sheet and fixed income investments and management, as well as the funding and incubation of corporate ventures and projects.

PART A - EXPLANATORY NOTES (CONTINUED)

A31 Fair Value Estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Determination of fair value and fair value hierarchy

The fair value hierarchy has the following levels:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets and liabilities in active markets; or
- Quoted prices for identical or similar assets and liabilities in non-active markets; or
- Inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 - One or more inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Assets/liabilities are classified as Level 1 when the valuation is based on quoted prices for identical assets or liabilities in active markets.

Assets/liabilities are regarded as being quoted in an active market if the prices are readily available from a published and reliable source and those prices represent actual and regularly occurring market transactions on an arm's length basis.

When fair value is determined using quoted prices of similar assets/liabilities in active markets or quoted prices of identical or similar assets and liabilities in non-active markets, such assets/liabilities are classified as Level 2. In cases where quoted prices are generally not available, the Group determines fair value based upon valuation techniques that use market parameters as inputs. Most valuation techniques employ observable market data, including but not limited to yield curves, equity prices, volatilities and foreign exchange rates.

Assets/liabilities are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data. Such inputs are determined based on observable inputs of a similar nature, historical observations or other analytical techniques.

If prices or quotes are not available for an instrument or a similar instrument, fair value will be established by using valuation techniques or Mark-to-Model. Judgment may be required to assess the need for valuation adjustments to appropriately reflect unobservable parameters. The valuation models shall also consider relevant transaction data such as maturity. The inputs are then benchmarked and extrapolated to derive the fair value.

Valuation Model Review and Approval

- Fair valuation of financial instruments is determined either through Mark-to-Market or Mark-to-Model methodology, as appropriate;
- Market Risk Management is mandated to perform mark-to-market, mark-to-model and rate reasonableness verification. Market price and/or rate sources for Mark-to-Market are validated by Market Risk Management as part and parcel of market data reasonableness verification;
- Valuation methodologies for the purpose of determining Mark-to-Model prices will be verified by Group Risk Management Quantitative Analysts before submitting to the Group Market Risk Committee ("GMRC") for approval;
- Mark-to-Model process shall be carried out by Market Risk Management in accordance with the approved valuation methodologies. Group Risk Management Quantitative analysts are responsible for independent evaluation and validation of the Group's financial models used for valuation;
- Group Risk Management Quantitative analysts are the guardian of the financial models and valuation methodologies. Market rate sources and model inputs for the purpose of Mark-to-Model must be verified by Group Risk Management Quantitative analysts and approved by Regional Head, Market Risk Management and/or the GMRC;
- Model risk and unobservable parameter reserve must be considered to provide for the uncertainty of the model assumptions;
- The Group's policy is to recognise transfers into and transfers out of fair value hierarchy levels as of the date of the event or change in circumstances that caused the transfer; and
- Independent price verification process shall be carried out by Market Risk Management to ensure that financial assets and liabilities are recorded at fair value.

PART A - EXPLANATORY NOTES (CONTINUED)

PART B

B1 Group performance review

The Group recorded a pre-tax profit of RM1,109.4 million for the financial period ended 30 September 2022, an increase of RM389.1 million or 54.0% compared to the previous corresponding period. The Group's net profit increased by 37.3% to RM738.6 million, equivalent to net earnings per share of 73.86 sen.

The Group's year-on-year increase in earnings was mainly contributed by higher total income by RM454.5 million, lower modification loss, expected credit losses and overhead by RM70.3 million, RM82.9 million and RM37.0 million respectively, offset by higher income attributable to depositors and profit distributed to investment account holder by RM121.4 million and RM134.4 million respectively.

For the nine months ended 30 September 2022, total income increased by RM454.5 million or 13.4% to RM3,859.3 million from previous corresponding period, comprising of increase of income derived from investment of investment account and income derived from shareholder's funds by RM291.2 million and RM204.8 million respectively, offset by decrease in income derived from investments of depositors' funds and others by RM41.4 million.

The lower expected credit losses mainly contributed by lower net expected credit losses made on financing, advances and other financing/loans by RM31.7 million was mainly due to lower expected credit losses made on financing by RM15.6 million and higher impaired financings recovered by RM16.8 million.

The Group's gross financing, advances and other financing/loans grew by 12.48% to RM103.3 billion while deposits from customers and investment accounts of customers grew by 9.5% to RM105.1 billion and by 8.5% to RM11.3 billion respectively, as compared to 31 December 2021.

The Group's Common Equity Tier 1 stood at 13.038% as at 30 September 2022 from 15.109% as at 31 December 2021.

B2 Prospects for the current financial year

The Bank remains optimistic of an improved 2022 financial performance in tandem with the economic growth momentum and higher business activity. Nonetheless, management is vigilant of the outlook for the rest of 2022 in view of the decelerating global economic growth underpinned by escalating inflation and profit rates, global supply disruptions, still-prevalent threat from Covid-19 and the possibility of a global recession. The Bank will continue to execute on initiatives laid out under the Forward23+ strategic plan, particularly focusing on targeted growth segments, cost management, RAROC optimisation, sustainability initiatives and driving technology investment to further improve digital capabilities and strengthen operational resiliency. Asset quality and credit risk management remains a core focus in all business segments as customers move out of payment assistance programs, while the Bank continues to leverage on the dual banking model.

B3 Computation of earnings per share (EPS)

a) Basic EPS

The Group and Bank basic EPS is calculated by dividing the net profit for the financial period by the weighted average number of ordinary shares in issue during the financial period.

	The Group			
	3rd Quarter Ended 30 September 2022 RM'000	30 September 2021 RM'000	Nine Months Ended 30 September 2022 RM'000	30 September 2021 RM'000
Net profit for the financial period (RM '000)	301,976	102,995	738,560	537,735
Weighted average number of ordinary shares in issue ('000)	1,000,000	1,000,000	1,000,000	1,000,000
Basic earnings per share (expressed in sen per share)	30.20	10.30	73.86	53.77

	The Bank			
	3rd Quarter Ended 30 September 2022 RM'000	30 September 2021 RM'000	Nine Months Ended 30 September 2022 RM'000	30 September 2021 RM'000
Net profit for the financial period (RM '000)	301,976	101,606	738,560	536,438
Weighted average number of ordinary shares in issue ('000)	1,000,000	1,000,000	1,000,000	1,000,000
Basic earnings per share (expressed in sen per share)	30.20	10.16	73.86	53.64

b) Diluted EPS

There were no dilutive potential ordinary shares outstanding as at 30 September 2022 and 30 September 2021.
